Wheel Bearing Extractor Set

Description

For removing and installing wheel bearings and hubs. Suitable for use on many applications including BMW, Citroën, Ford, Mercedes-Benz, Opel, Renault, SEAT and Skoda. This tool set enables the change of 'built-in' wheel bearings. Save time by not having to remove the suspension strut and adjust the camber.

Specially designed housing avoids the requirement to remove the ABS sensor and also avoids damage to that unit.

Manufactured in high tensile material.

Supplied in durable storage case.
