Description

The Mandrel has been specifically designed for BMW clutches where the clutch centre plate has a 32.5mm splined section and the clutch cover is fitted with a removable centrally mounted locking plate as shown.

This locking plate can only be removed once the clutch cover is fitted which prevents standard clutch aligning mandrels with handles being used.

The mandrel is required for BMW SAC clutch fitted to BMW 3.0 diesel. See apps.

The kit is for fitting NEW SAC clutch covers that are supplied with a locking plate.

- Size 32.5mm diameter x 56.5mm length (minor diameter 15mm)
- Applications: BMW 3 Series | 5 Series with chassis code E90 | 9 | 92 | 93 | 60
- For 3.0 litre diesel engines
- Applicable only to centre plates with 32.5mm clearance on the splined hub

Packaging

Poly bag and header
